NEIGHBOURHOOD NEWS

Gartside Gardens

Merry Christmas and Happy New Year!

This year for the first time, there is a brightly lit Christmas Tree in Gartside Gardens.

The year has been very difficult and strange for many, but we are getting through this together.

There is hope for the new year with a vaccine now starting to be available and we look to a brighter future.

The Christmas tree has been made possible by S4B providing a new electricity connection in Gartside Gardens. A very appropriate place for future celebrations where it now stands with the Bee carving and the Peace Tree.

Why not pop down and take a 'Socially Distanced' look when the lights come on after dusk and maybe take a little time for reflection on how far we as a community have come. It really does look beautiful.

From all of us here at S4B, we thank you for your continued support and patience while we work together during this pandemic.

Season's greetings to all our customers and we wish you all a brighter and prosperous 2021.

Turn to page 6 for festive info.

DON'T FORGET!

If you have a clear rent account, 21 December will be a RENT-FREE WEEK.

Great news at such a difficult time and we hope it will allow you spare some money for you to enjoy a few treats or buy a present or two this Christmas.

If you have a clear rent account you can benefit from this.

S4B MEET THE TEAM

Originally from London, Income management specialist SHANNON SMITH joined S4B a few months ago.

Shannon said: "I am here to help and I want to offer as much support and guidance as I can, especially at this very difficult time we are going through."

Please don't fall into rent arrears because of Christmas and if you are struggling please do get in touch and I will do my best to help".

Welcome Shannon!

Environmental Services Operative, PAUL SHORROCK joined S4B in October.

Customers may already recognise his face as he has worked in the area for many years for Mears as a sub-contractor, so he is very familiar with the neighbourhood.

Paul will mainly oversee duties at the soon to be completed Extra Care development, Brunswick Village.

He was also invaluable supporting S4B when the whole team was in lockdown in March.

Thank you, Paul!

DARREN BRADSHAW, S4B Customer Contact Team Specialist won the Exceptional Customer Service Award at the OnAwards. Onward's internal awards event for colleagues.

He was highlighted for his consistent excellent services and desire to always find a way to help resolve customer questions. He is a very worthy winner and an inspiration to the S4B team and our neighbourhood.

Well done Darren!

RECHARGEABLE REPAIRS

S4B carry out repairs as standard on the structure of your home along with gas, electricity, plumbing, and heating installations etc. These repairs fall under the terms of your tenancy agreement.

Most people take a real pride in where they live, but there are a few who deliberately cause damage to their home.

Any damage caused deliberately or by neglect will have to be paid for by the resident.

These are known as rechargeable repairs e.g. damage to locks, broken doors and frames, gates forced open

or where a resident appears to have broken a fixture or fittings.

You don't have to pay for things such as fair wear and tear, or for any damage caused by a crime that has been reported to the police.

For more information please get in touch T: **0300 555 0128** or email **info@s4bmanchester.co.uk**

METER CHEATING IS DANGEROUS AND COULD COST YOU YOUR LIFE!

Energy theft is when a person is not paying for their gas or electricity or they are paying less than they should because their meter has been tampered with or bypassed.

Tampering with energy meters to save money is extremely dangerous.

The first signs can be shocks from switches and burns from appliances, but sudden fires and even explosions are possible too, putting you and your family in real danger.

It is a serious breach of your tenancy agreement to tamper with your meter.

For more information on what to look out for, or to report a meter cheat anonymously, visit the **Stay Energy Safe** website **www.stayenergysafe.co.uk** or call the helpline **0800 023 277**.

A Huge Congratulations to **TASLIMA AHMAD AND CREATIVE DESIGN AND MANUFACTURE UK (CDM UK)**, here in **Brunswick** who have won a **National Lottery Award 2020 in the Heritage Category.**

Taslima coaches women in Manchester in hand-processed textile manufacturing techniques such as batik and block printing.

She has also delivered classes to more than 2,000 school children. Her teaching and mentorship has led to 15 young women following her example and studying textiles at university.

Unable to run workshops in person during the pandemic, she took her sessions online to help BAME women to cope with the impact.

She also applied for funding for sewing machines, which allowed 20 women to become self-employed making textile products using Taslima's heritage techniques.
