

# COULD YOU EVACUATE YOURSELF IN AN EMERGENCY?

## Personal Emergency Evacuation Plans (PEEPs)

If anyone in your household would need assistance to safely evacuate this building in an emergency, you need to inform us **as soon as possible**.

We especially need to know if anyone in your home:

- has chronic or acute mobility issues
- regularly uses oxygen as a breathing aid.

Your **S4B Team** can create a **Personal Emergency Evacuation Plan (PEEP)** for you.

Your safety is our number one priority. By keeping us updated, you can help keep our buildings safe for everyone.

If you have any questions or concerns about fire safety,  
please call us immediately on 0300 555 0128
